📍 Karachi, Pakistan

## SUMMARY

Motivated Computer Science student and Front-End Developer skilled in React, JavaScript, and MySQL. Experienced in building responsive, user-friendly web applications and contributing to real-world projects during internships at Deserts Digital OÜ, NED University, and KDA. Passionate about creating modern, accessible, and efficient digital solutions.

## EXPERIENCE

### Digital Accessibility Intern

#### Deserts Digital OÜ

📅 07/2025 - 12/2025  📍 Remote

- Support web and PDF accessibility compliance.
- Conduct accessibility audits.

### Frontend Web Developer

#### NED University of Engineering and Technology

📅 01/2025 - 03/2025  📍 Karachi, Pakistan

- Gained hands-on experience with front-end technologies.
- Built user-friendly and efficient web interfaces.
- Faced and solved real-world development challenges.
- Improved technical and problem-solving skills.
- Actively learning through new project assignments.
- Collaborating with team members on ongoing tasks.
- Motivated to grow in the field of web development.

### Frontend Web Developer

#### Interns Pakistan

📅 12/2024 - 01/2025  📍 Karachi, Pakistan

- Designed and developed web applications.
- Built a COVID-19 testing web application.
- Improved skills in responsive design and UI development.
- Created a personal portfolio website using WordPress.
- Customized CMS themes and layouts.
- Strengthened understanding of HTML, CSS, JavaScript, and WordPress.

### Frontend Web Developer

#### CodeAlpha

📅 06/2025 - 07/2025  📍 Karachi, Pakistan

- Design and develop visually appealing, user-friendly, and responsive web applications.
- Use HTML, CSS, and JavaScript for front-end development.
- Work with front-end frameworks such as React.
- Collaborate with designers to implement UI/UX designs.
- Coordinate with backend teams to deliver seamless user experiences.

### Information Technology Support Staff

#### Karachi Development Authority (KDA)

📅 03/2025 - 03/2025  📍 Karachi, Pakistan

- Explored different sectors of the IT department.
- Gained practical exposure to system management.
- Assisted with software maintenance activities.
- Learned web development processes.
- Developed an understanding of overall IT operations.

### Virtual Office Assistant

#### Desert BIM

📅 08/2025 - 12/2025  📍 Remote

- Provided comprehensive administrative and organizational support to interns.
- Ensured smooth day-to-day operations and efficient workflow management.
- Managed calendars, meetings, and scheduling.
- Conducted online research and prepared detailed reports.
- Coordinated with teams to ensure effective communication and task completion.
- Prepared, edited, and organized business documents and files.
- Performed a wide range of administrative and personal support tasks.

## EDUCATION

Bachelor of Science in Computer Science & Information Technology

NED University of Engineering and Technology , Karachi

📅 09/2022 - Present  📍 Karachi, Pakistan

Pre-Engineering

Sir Syed College

📅 07/2020 - 04/2022  📍 Karachi, Pakistan

## PROJECTS

### Library Management System

Built a full-stack Library Management System using React, Express, and MySQL, featuring Admin and Student roles, role-based access control, full CRUD operations, borrowing/purchasing logic, and JWT-based authentication.

### COVID19 TESTING APP

The COVID-19 Testing App offers a quick risk assessment through a quiz, provides information on symptoms and prevention, and delivers result-based guidance to help users decide on further testing or precautions.

### Landing Page

Developed modern, responsive web interfaces including an e-commerce platform and a business landing page, focusing on clean UI, mobile-friendly design, accessibility, smooth navigation, and engaging user experiences using HTML, CSS, Bootstrap, and interactive elements.

### Student Information System

Developed a role-based Student Information System using PHP, MySQL, HTML, and CSS, featuring Admin, Teacher, and Student dashboards with secure access control, session management, and efficient handling of departments, courses, and registrations.

### React Projects Showcase

Developed a collection of 18 beginner-to-intermediate React projects demonstrating core concepts such as state management, hooks, conditional rendering, form handling, and basic API integration, with responsive and animated UI built using Tailwind CSS.
